A motion was made by Tim Boyde, seconded by Joe Budinger, and carried to pay the invoice as submitted.

ACCORD Report

Jeff Stager from ACCORD gave a report on the progress made to date including the development of several policies for property acquisition. Mr. Stager noted that Chautauqua County Land Bank's policies and procedures were referenced when developing the Allegany County Land Bank policies and procedures. He noted he has received a copy of the LISC grant contract and determined the initial LISC grant in the amount of \$150K is a planning or "seed money" grant. It allows for greater flexibility. Originally, they had thought that the grant expired in June of 2017 but learned that won't happen. Next steps include identifying roles and responsibilities to ensure systems and staff are in place to accomplish the tasks at hand. The second LISC grant award was for \$360K and Bryan Gamache reported that he will need to redo the budget since they were awarded less funding than requested. Bryan has a copy of the contract and will forward the information to Kier Dirlam and to ACCORD.

Land Bank Project Updates

Jason Isaman from ACCORD discussed the progress of the website with members. Kier Dirlam and Bryan Gamache both stated they reviewed the information and agreed it looked good at this point. Mr. Isaman shared future goals for the website to include update profiles and interactive maps listing information on abandoned and foreclosure properties.

Jason Isaman shared that Rich Ewell of Richardson and Stout, Inc. is currently working putting together a policy based on information from other land bank projects and from the state land bank association. The policy will be separate from the county's insurance.

Jason Isaman reported that the sub-committee for property acquisition met and reviewed properties listed on the tax sale list. Dean Scholes mentioned it will be necessary to know the amount of funding available what work is fundable to assist in prioritizing property acquisition goals. Dean Scholes felt the checklist is going to be very important going forward. Jason Isaman noted the land bank will have to demonstrate due diligence with properties acquired including cleaning up long standing grass, boarding up broken windows, etc.

The goal is to sell rehab or demolition ready properties. Also to work with the towns and villages and share demolition project funding. Terri Ross noted that towns and villages will most likely not have budgets for demolition work.

Executive Session

A motion was made by Terri Ross, seconded by Darwin Fanton, and carried to enter into executive session to discuss matters relating to the appointment or employment of a particular person at 9:18a.m. Immediately following discussion at 9:48a.m., a motion was made by Terri Ross, seconded by Darwin Fanton, and carried to end the executive session and return to the regular meeting.

Acceptance of Letters of Resignations and Future Allegany County Land Bank Board Chairmanship

A motion was made by Kevin LaForge, seconded by Tim Boyde, and carried to appoint Kier Dirlam as Chairman of the Allegany County Land Bank Board.

501(c)(3) Status

ACCORD Executive Director Lesley Gooch-Christman encouraged members to continue making incremental steps to board membership alignment according to 501c3 regulations and not to make a drastic change at once that will jeopardize the future success of the project.

Committee Chairman, Kier Dirlam informed members that the Conflict of Interest policy will be addressed at the meeting next month.

Darwin Fanton noted while reviewing the policies he felt there were a couple of instances where the policies were contradictory. Chairman Kier Dirlam tasked members of the board to carefully review the information and to submit their questions, concerns and feedback to Jason Isaman prior to the meeting next month so that Jason Isaman could compile a list of items and report back to the board next month for discussion and approval.

Additionally, subcommittee committee members will further develop criteria based on the mission and will prioritize the goals and objectives of the land bank project. Following discussion, members agreed to not participate in this year's tax sale but focus efforts primarily on establishing policies and procedures to prepare for the future.

Jason Isaman noted staff are currently working to develop a comprehensive list of foreclosure properties in Allegany County based on current tax assessments, rehabilitation work completed, and the market value of the property. Staff are dwindling down a massive list to determine options best suited for committee member consideration.

Dean Scholes reiterated that funding guidelines need to be understood to accomplish win-win situations. For example, some funding cannot be used for commercial properties but can be used for mixed properties. They will also need to consider access to sewer, water, utilities, transportation, stores, schools, etc.

Chairman Kier Dirlam noted this is not a committee of Allegany County Government and therefore communication should be handled through board membership before information is disseminated to the public.

J. Stager reported staff has gathered more information on HUD homes and when there is a foreclosure and HUD has secured the mortgage, after 180 days the homes are available for \$1 purchase to not-for-profit organizations. Currently, there is one home left on the market and the ACLB has started completing the paperwork required in order to purchase HUD homes.

J. Stager reported feedback from the LISC representative indicated that seed funding most likely will not be available in the future.

The AmeriCorps workers will participate in a capstone event the end of September and have worked hard gathering housing inventory information and completing data reports that will continue to be helpful. It was noted that recruiting AmeriCorps workers was a challenging process.

K. Dirlam noted the State of New York Authorities Budget Office has requested that the Allegany County Land Bank file an annual budget and a multi-year financial plan completed by an independent consultant. EFPR will likely complete the report the end of the first fiscal year (December 2017). He stated he would prepare a response letter to inform them of our plans.

J. Stager will provide T. Ross with a full budget that includes detail by funding categories and funding source. The current funding awards supporting the ACLB include \$150K from the Attorney General Grant, \$10K CPIG award, \$33K AmeriCorps Grant, and \$360K from the LISC Grant.

It was noted that we are at the stage where we need to get the ACLB functioning. J. Stager distributed a pamphlet for review. It describes what a land bank is and K. Dirlam felt the pamphlet will be a useful resource with recruiting board members.

Audit

T. Ross submitted a monthly report of bills for committee review and approval for payment totaling \$11,886.90.

A motion was made by K. LaForge, seconded by T. Boyde, and carried to approve the treasurer's report and pay the bills.

Legal Matters

K. Dirlam recommended the ACLB staff develop a list of pros and cons concerning becoming a not-for-profit status. It may be beneficial for the ACLB to not pursue the status.

Property Acquisition Discussion

J. Isaman mentioned the current goal for the ACLB as acquiring 10 properties with the \$360 LISC grant funding. Discussion followed concerning acquisition rates, forecasting budgets, and calculations. T. Ross, J. Isaman, and J. Stager will meet to finalize the property acquisition rates.

K. Dirlam mentioned that since the LISC funding will likely go away, we will need to develop a sustainability plan.

ACLB staff have gathered information about HUD homes and former Cornerstone properties for property acquisition possibilities. It was noted that Cornerstone recently auctioned three of their former properties.

T. Boyde mentioned with the potential for a state mandate and code enforcement fee of \$750 per parcel for County owned properties and we may need to determine if it will be wise decision to move forward purchasing any properties with County money.

The current annual operational costs for the ACLB are estimated at \$80K for administrative and financial duties alone. This assumption requires that the land bank owned properties are sustainable.

K. LaForge mentioned the Cattaraugus County Land Bank partnered with the Cattaraugus County DPW and completed demolition projects. Currently, the Allegany County Land Bank has \$90K allocated to demolition projects.

In order for the ACLB to be sustainable it must acquire properties. Current acquisition plans include purchasing two vacant lots in Wellsville near the Hart Comfort House for demolition and one HUD home for renovation.

T. Ross mentioned she would like to the minimum bid amount be \$150 following the established minimum bid procedures for the County's tax sale auction.

T. Boyde noted that land banks contribute to overall goal of increasing housing stock and attracting economic development in communities by reducing blight.

It was mentioned if County funds are used for property acquisitions, the code enforcement restrictions will be much greater, and therefore; it was suggested that we use unrestricted funding or grant funding for property acquisition.

The estimated cost for code enforcement fees per property is \$750.

A motion was made by K. LaForge, seconded by Darwin Fanton, and carried to approve the purchase of a HUD home using LISC grant funding and to submit a request for approval to purchase two vacant lots in Wellsville near the Hart Comfort House to the Ways & Means Committee and the Board of Legislators for approval since those two parcels are included in the County's tax auction property list.

Also, the ACLB will need a treasurer and bookkeeper.

J. Stager noted there is still need for a certificate of insurance liability as required by the funding source.

He reported there is \$2K remaining in AmeriCorps grant for planning activities. Also, the laptops that were purchased by the grant belong to the ACLB.

Concerning benefits of 501c3 status for ACLB, J. Stager reported the LISC grant requires the not for profit status. It was noted that other land banks have formed LDCs to handle commercial properties. K. Dirlam requested J. Isaman and J. Stager further discuss 501c3 and LDCs pros and cons with Ed Pakarek, Esq. and report back to the group at the next meeting.

Concerning ACLB bid requests for tax sale properties, J. Stager recommended doing a press release for marketing. J. Isaman stated trash removal, lawn care, and other light renovation work will be necessary. J. Isaman has been in contact with the Alfred Beautification Club. K. Dirlam recommended he contact Jonathan Hilshire from Alfred State College to discuss the possibility of college students providing community service work to benefit the ACLB.

It was recommended that the Allegany County Probation Department be contacted for community service workers to assist with light duty maintenance and repairs.
