### **Equal Employment Opportunity Program (EEOP) Utilization Report**

An Equal Employment Opportunity Plan or EEOP is a workforce report that some organizations must complete as a condition for receiving some federal funding. The purpose of the EEOP is to make sure that recipients of financial assistance are providing equal employment opportunities to men and women regardless of sex, race, or national origin.

The EEOP Utilization Report is a tool to help recipients comply with the EEOP regulations. This report prompts recipients to collect and analyze key employment data, organized by race, national origin, and sex.

The EEOP Utilization Report for Allegany County Government is on file in the Human Resources & Civil Service Department and is available upon request.
