HEALTH DEPARTMENT

Public Health Director Lori Ballengee attended the meeting and submitted her monthly report for review. Ms. Ballengee stated the Clinical/Medical Services numbers are showing a decrease in December; however, it is not uncommon as students are gone during the month of December. Ms. Ballengee stated the total value of WIC checks issued for 2017 was \$1,313,122, noting they generated over \$12,000 in Farmer’s Market checks during the Spring, Summer, and Fall. Legislator Healy asked if there is a way to track where the money is spent. Ms. Ballengee stated she can get a report that tracks spending, and she will get the information to the Board. Ms. Ballengee stated they are currently out of state clinical funds and have had to place individuals on a waiting lists for mammograms, colonoscopies, etc. Legislator Decker asked if it is due to an increase in demand or a decrease in funds received. Ms. Ballengee stated they did not receive as much money. The state is aware, and as soon as funds are released, they will be reaching out to those on the waiting list which is currently less than 10 individuals. Ms. Ballengee stated there was a 16 percent increase in Coroner calls in 2017; however, the autopsy cost is down due to the contract we have with Olean General Hospital. Ms. Ballengee highlighted the contract as well as the process for autopsies for the new Board members. Ms. Ballengee stated in the eleven years she has been in her position; this is the first time the entire United States has been affected by Influenza. Ms. Ballengee indicated this year’s flu strain intensity is severe and spreading in high frequency. Ms. Ballengee encouraged all who have not received their flu vaccine to contact the Health Department as they still have vaccines available. Legislator Healy asked if there is a concern of this becoming a trend in the future. Ms. Ballengee stated it’s not a matter of if, but when a flu pandemic will occur. Legislator Decker asked how late someone can get their flu shot. Ms. Ballengee stated they keep the vaccine on hand until March or April. Ms. Ballengee

announced that Melissa Watson is now a Nationally Board Certified Lactation Consultant. She is the second for our County, it is a very intensive certification, and they are proud of her work. Dustin Quinn passed the Environmental Protection Agency (EPA) Certification to become a Lead Risk Certifier, which now brings our total of certifiers in the County to three. Ms. Ballengee was re-elected as Co-Chair for another one-year term to the Western New York Public Health Alliance. This group is part of the eight Western New York Public Health Commissioners, Directors, and other health related agencies.

OFFICE FOR THE AGING

Office for the Aging Director Madeleine Gasdik attended the meeting and submitted her monthly report to the committee for review. Ms. Gasdik noted that in 2017 there was a total of 3,290 people age 60+ served; however, that number does not include the miscellaneous “quick calls” they receive. Ms. Gasdik stated there were a total of 118,994 meals served in 2017 which is an all-time record for the Meals-on-Wheels Program. Ms. Gasdik indicated this number is after they eliminated individuals whose need for meals was not as great, or they had another source for food. Ms. Gasdik stated they recently had their annual evaluation, and it went very well. They were cited once for an over-due well monitoring visit for the Willcare, Inc. home health care agency because it was not completed within the 365-day requirement. Ms. Gasdik explained that this was due to an unexpected winter storm, and they always try very hard not to miss them. In the future, all contract monitoring will be scheduled at least three weeks before the 364th day. Office for the Aging received a letter from New York State Office for the Aging recognizing them for several best practices. Legislator Barnes indicated that during his campaign for Legislator, he met several new County residents who required Office for the Aging services, and asked if they are the majority who receive services, or do we have a good amount of “home grown” residents that utilize them. Ms. Gasdik stated a lot are originally from the County. Some leave the area after retirement and then return as the need becomes greater; however, we do have some who are brand new to the County. Ms. Gasdik stated due to inclement weather, Meals-on-Wheels has been cancelled for Wednesday, February 7, and they are encouraging residents to utilize their Blizzard Boxes.
