RE: County-Wide Shared Services Initiative Meeting 8/22/2017

Thank you all for the wonderful meeting last night, I felt that it was very productive and you all asked some great questions. I promised that I would send you all some items regarding the following:

- Water Operator Training Courses
- Water Operator Responsibilities
- Survey for Water/Sewer Operators ✓
- Water Operator Grade Requirements for Coverage on Other Water Systems
- Cross Connection Control Manual (Backflow Prevention Devices) ✓

I am happy to provide the items with check marks next to them and they are attached. If you have any further questions about any of these items I would be happy to assist. The items that do not have a check mark, I have placed an inquiry with the New York State Department of Health, Bureau of Water Supply Protection so that I can give you the most up to date answer possible. You can reach me any time at shawtj@alleganyco.com or (585) 268-9254. Thank you for your continued partnership and commitment in this effort!

Very Respectfully,

Tyler J. Shaw, MHA
Environmental Health Director
